

Mississippi River Basin Healthy Watersheds Initiative

Kickapoo River Watershed

Known as "America's River," the Mississippi River is North America's largest river, flowing over 2,300 miles through America's heartland to the Gulf of Mexico. Through the Mississippi River Basin Healthy Watersheds Initiative (MRBI), NRCS and partners work with producers and landowners to implement voluntary conservation practices that improve water quality, restore wetlands, enhance wildlife habitat and sustain agricultural profitability in the Mississippi River basin.

NRCS has identified the Mississippi River basin as a top priority due to water quality concerns, primarily related to the effects of nutrient loading on the health of local water bodies and, eventually, the Gulf of Mexico.

Conservation practices installed by producers will serve to avoid, control and trap nutrient runoff, prevent erosion and provide essential wildlife habitat. These practices benefit the natural resources of the Mississippi Basin and enhance agricultural profitability through reduced input and enhanced soil health, which results in higher soil organic matter, increased infiltration and water-holding capacity and nutrient cycling.

Kickapoo River Watershed agricultural producers and landowners have been selected for this funding opportunity. Special funding under the Environmental Quality Incentives Program, MRBI, will be available specifically in selected subwatersheds including West Fork Kickapoo, Tainter Creek, Trout Creek-Kickapoo River, Caswell Hollow-Kickapoo River, Halls Branch, Goose Creek-Kickapoo River, Otter Creek, Plum Run-Kickapoo River, Wester Creek, Moore Creek, Sleight Creek-Kickapoo River and Knapp Creek-West Fork Kickapoo River of the Kickapoo River in addressing nutrient and sediment losses from cropland and degraded pastures. Applications are currently being accepted at Vernon, Crawford, Richland, and Monroe County NRCS Service Center offices. Apply by June 2, 2017 to be considered for 2017 funding.

Landowners interested in applying should contact their local NRCS service center in Crawford, Monroe, Richland, or Vernon County. For more information, visit www.wi.nrcs.usda.gov.

Crawford County (608) 326-7179
USDA-NRCS Prairie du Chien Service Center
37500 US Hwy. 18
Prairie du Chien, WI 53821-8110

Monroe County (608) 269-8136
USDA-NRCS Sparta Service Center
820 Industrial Drive, Suite 3
Sparta, WI 54656

Richland County (608) 647-8874
USDA-NRCS Richland Center Service Center
26136 Executive Lane, Suite C
